INTRODUCTION

The Research Data and Management Information Section of the National Institute of Dental Research receives microfiche copies of technical reports in the category of Dentistry, through a Selective Dissemination of Information subscription with the National Technical Information Service (NTIS). Periodically, a list of these reports is distributed to NIDR staff and other interested persons.

This publication includes all titles received from October 1981 through December 1984. NIDR contracts are identified with an asterisk (*) and the contract number following the NTIS accession number.

Upon request, the RDMIS will order paper copies of reports for NIDR staff members. In addition, a microfiche reader is available in our office, or the microfiche can be borrowed for viewing on other equipment.

Paper or microfiche copies of reports can also be ordered directly from the National Technical Information Service, 5285 Port Royal Road, Springfield, Virginia, 22161, (703) 487-4650. An index of price codes and current prices begins on page vii of this publication.
